Virtual Airline Partnership Program

Latest Updated on September 27th in 2017

1. General Information

PHP-Mods is a fast growing company in the web services industry and specializes in the virtual airlines support and development. Founded in 2012, PHP-Mods has offered a wide range of services to its clients. Our Team offers the best solutions based on our client's standards even if it has to do with a business or a personal website. Virtual Airline Partnership Program Overview

Virtual airlines which are using or have used any of our services can request to be part of our Virtual Airlines Partnership Program. We have designed this program to offer the virtual airlines the ability to increase their popularity and have their name listed in one of the most famous companies in the virtual airline industry.

2. Benefits

Being part of our Virtual Airline Partnership program offers to virtual airlines several benefits. There are:

- **Access to PHP-Mods modules beta versions** – The virtual airlines which will be part of our program, will receive access to our modules (including freeware or pay ware) before they get released to the public.
- **Website Linking in PHP-Mods Website** – The virtual airline logo and website url will be posted in the partners page of our website.
- **Standard 10% discount of all the PHP-Mods pay ware phpVMS modules** – All our partners will receive a coupon code which will give them 10% discount of all our pay ware phpVMS modules.

3. Requirements

Every virtual airline can be part of our virtual airline partnership program as soon as it fulfills the following criteria:

- Use at least one of the PHP-Mods services including web hosting or any pay ware module compatible with phpVMS.
- Have a fully custom, functional and professional looking website. (Partly customized websites can be accepted too on our discretion).
- Have at least 15 registered and active pilots.
- Have been active for 45 or more days (based on the domain/PIREP data).
- Display the PHP-Mods logo on your website including a link back to our website.

4. Terms and Conditions

PHP-Mods reserves the right to reject or reconsider a virtual airline partnership based on several conditions including but not limited to website reliability, community feedback. Access to the beta versions of any pay ware module will be given as soon as the module has been previously purchased. Modules purchased using any discount offered by the Virtual Airline Partnership Program should be used only in the partner's virtual airline website. The discount of the Virtual Airline Partnership Program cannot be combined with any other discount.

Virtual Airline Partnership applications should be sent via email at info@php-mods.eu
